Forever Connected

Bringing Life Full Circle

Deb Sheppard, internationally recognized medium, psychic, author and speaker, has connected thousands of clients to their loved ones in spirit, helping bring life full circle. Death is a part of every life, and Deb believes those who have crossed over remain connected to us although they are on the other side, they are forever by our side.

Deb has been told that her incredible ability places her in the top 3% most accurate in her profession. She has been tested and is recommended by James Van Praagh and has been recommended by Best Psychic Directory as a top-rated medium. Known as an "empath," Deb connects to the unseen realms through feelings in her body and her emotions. As a medium, she acts as a liaison, relaying comforting messages between the physical and spiritual worlds. As an entertainer, Deb's sense of humor, light-heartedness and compassion create a safe and fun environment for all who attend her readings and events.

Deb's Story

THE START OF HER JOURNEY

Deb's journey into mediumship began unexpectedly, when she and her husband had relocated to Colorado and were facing financial difficulty. Her family was on the verge of losing everything. She decided to look for answers outside of her life experiences—and the answers came: Deb began to feel spirits who had crossed over and, after much reading and exploring, soon realized she was a medium.

In 2001, not long after understanding and accepting these abilities, Deb had an opportunity to be a guest on the Denver radio station KOSI 101.1 DJ Rashke, host of "KOSI After Dark," was both open minded and skeptical, especially since Deb had not yet established a practice. Rashke took a risk and invited Deb on the show.

That night was surreal. Deb did 52 readings on and off the air. Deb's mediumship skills were already shining through with uncanny accuracy, because afterward, Rashke, who had known many psychics, looked at Deb with a serious face and said, "You have the opportunity to change you life, if you want to."

Deb spent the next 15 years on KOSI 101.1 with a variety of DJs and to this day is extremely grateful to Rashke and Rick Martini, the program director, for taking a chance on her. The experiences changed Deb's life and launched her career as a medium—on the air and off.

During this time, Deb also worked for six years with Jones Radio Networks, her readings being syndicated on 150 national stations. She is currently featured on iHeart Radio's 95.7 The Party "JJ & Deanna Show" and Deb Nabb's "The Mutt Master" show, where she communicates with animals and pet parents that have challenges.

News outlets have also gotten the word out about Deb's abilities. She has made guest appearances on KUSA-TV Channel 9 in Denver, including "Colorado & Company" with Denise Plante, and other local morning shows. She's been interviewed over 20 times on a variety of TV and radio programs, and her opportunities on media outlets continue to expand.

Several publications have also highlighted Deb, her philosophies and spiritual understandings: The Healing Path Magazine, which also featured John Holland; Orbs A Personal Journey, a book by Donna Didomenico; Good to Go: A Guide to Preparing for End of Life, a book by Jo Myers; and My Loved One Shines On, a Gift from Beyond, a book by Disa Van Orman.

DEB'S MISSION TO PREVENT SUICIDE

One of Deb's most passionate missions is to help prevent suicide and aide suicide awareness through numerous efforts and organizations. Deb's life has been touched multiple times by suicide, and she intends to help change the stigma surrounding this in her work going forward. In fact, Deb's soon-to-be-released book expresses her depth of understanding of the subject.

Many of Deb's clients are drawn to her because they, too, have been deeply affected by suicide. Much of her work focuses on helping people cope with grief and guilt when a loved one has died by suicide or helping them understand the mental illness that may have caused it. Deb also helps those contemplating such an act to find the hope, inner empowerment and purpose to live, and to live fully.

Deb has been the featured speaker on the topic of suicide for multiple organizations and at numerous events, such as the Young Professionals Organization, Survivors of Suicide, Women in Business with Mrs. Sandy Dahl (widow of Captain Jason Dahl, the pilot of United Airlines flight 93 on 9/11), and at Cherokee Castle & Ranch in Sedalia, Colorado. Deb is regularly involved with the American Foundation for Suicide Prevention, including their "Out of Darkness Walk" each year.

She takes part in other organizations that are doing good work in the world, too, including the "Chelsea Hutchison Foundation" that benefits families touched by seizures, and has been involved with Denver Hospice's "The Mask Project," "Camp Comfort" and "Project Safeguard."

Filled with enthusiasm for helping others, Deb facilitates self-discovery through her Mentoring Program. She also participates in the community by mentoring intuitive kids and supporting teachers and school counselors through her program, "The No Labels Project." Deb believes that if children are taught to embrace and develop their intuitive abilities, those skills can be used throughout their lives in so many ways.

WHAT DEB BELIEVES AND HOW SHE CONNECTS

Throughout her own childhood, Deb's mother gave her the greatest gift of all: an amiable sense of humor. Deb uses it to keep her audiences and clients entertained, to assist in the healing process, and to facilitate her connection to the other side. Of course, every medium has his or her own unique way of connecting.

Deb believes that souls consist of energy, and the laws of physics prove that energy cannot be created or destroyed. Therefore, it's her belief that our earthly bodies cannot forever sustain the soul's energy. The body must die, but the spirit lives on.

She also believes that we can live multiple lifetimes in one life and that no matter where we are on our journey, we can change our lives once we open ourselves to receiving. Whether we call it intuition, ability, God, Spirit, Divine, Energy, Universe, or a higher power of any kind, Deb believes everyone can connect if we are open to the answers.

Having finely tuned her own ability to connect with those in spirit, Deb is able to pinpoint very specific personality traits and detailed information about the individual's life. Those who have crossed over share what is currently going on in the lives of loved ones here on earth in order to validate without question that it really is them. They are there on the other side, yet still by our sides. Deb believes we are "Forever Connected" and has helped thousands with their journeys into understanding life, loss and creating fulfilling lives.

Deb's life is one of service, and she is forever grateful for all those who have reached out and touched her life with their abilities, love and support. She believes in and is open to life's mysteries and synchronicities.

Deb resides in Centennial, Colorado, and has two children, Sophia and Jake. She is finishing her soon-to-be released book that revolves around her understanding of suicide and helping all of us discover our life's purpose.

Several years ago I got a medium reading from Deb. She was very professional, sweet and she got me the results I wanted and more. It was the first reading for me and I didn't know what to expect. After I settled down, the relatives stepped forward, some expected and some very unexpected. The feeling after my reading was fantastic and so rewarding.

Deb is nothing short of amazing! I am in her mentor program, "Bringing Life Full Circle," and I believe it's the greatest gift I have ever given myself. She is an incredible, wonderful person and I wish everyone could see her at least once. Thanks for all you do, Deb. You are the best!

Because of Deb Sheppard and her gift of being a medium, she helped heal my heart and soul. She brought peace and serenity back into my life after I lost so many loved ones. Her readings were 100% spot on. I would highly recommend anyone wanting to get in touch with your loved ones that have passed. Deb is the person to contact. She is kind, gentle and has a beautiful soul. I think the world of her. Deb Sheppard is truly an amazing and talented woman!

Deb Sheppard presented to our business group and did several readings for audience members. The readings were fascinating, sensitive, and seemed very helpful to the recipients. Her discussions of the topic of psychic abilities and their applications were very interesting and thought provoking. I strongly recommend Deb for her psychic abilities and also her ability to communicate with individuals and groups.

Deb,

I wasn't sure what to expect last night and was definitely open but hesitant. You called me up to the stage when my daughter came to you. What you shared from our beautiful Rachael was healing for our whole family. You told me persistently to ask my living younger daughter about her leg and then specifically said to check for a bruise. This would be proof that her sister is watching over her. I watched you grab your left leg below the knee but I am not sure if you specified the left one. My daughter came home and I told her my experience with you and she seemed very skeptical. I asked if anything was wrong with her left leg and she said no twice. Then she said, "oh, I have this bruise that I got yesterday but I am not sure how I got it." She rolled up her pant leg and showed me a fairly large bruise below her left knee. I had forgotten to ask her about a bruise but remembered right then that you said to look for a bruise. I told her that meant that her sister was watching over her. I saw almost a happiness come over her that I have not seen in a long time.

Thank you for the messages from Rachael and helping in our healing journey.

A top psychic medium! I've received psychic readings from Deb that helped me navigate through challenging times--my divorce and leaving my corporate job, leading to a happier, more fulfilled life. Her mediumship readings are spot on and provided healing and closure when my loved ones crossed over. Whether you're starting your spiritual journey, needing direction in life or connecting with a loved one, Deb is the one!

Terri W. Aurora, Co.

My husband and I had never visited a medium but we both felt Deb Sheppard was authentic and on target on all counts. She was a tremendous help and saved us a lot of money that would have been spent on therapists. Deb was very clear on letting us know what to expect from our medium session and she came through each time on things that validated our loss. We came away with a better understanding so we could start the healing process. We are planning to schedule another private session as soon as possible.

Deb does not solicit but does offer help if you need it. I'm finding an array of aids and CD's on various subjects. Bottom line - SHE SAVED MY SANITY!

Deb is the real thing. I have never come across a more effective psychic medium. She convinced this skeptic, especially after the detailed evidence that came through. Wow!!!!

She is worth every penny.

Miranda P. Denver, Co.

I had a medium session with Deb, and the one session was better than 5 years of counseling. I was 100% for sure talking to the dead with her. There is zero doubt in my mind. People/animals who I would never guess showed up to talk and help me heal. The thing that surprised me was her insight and her advice she gave. She was very realistic and could give real life advice, not like someone you would picture who did this. Her head is not in the clouds. It was the best time and money I have ever spent on myself.

Deb is an amazing psychic and mentor. I participated in her mentoring program and it changed my life. I was in an unhealthy marriage, fading away as a person. I was lost and felt very alone. She taught me to empower myself, how to reconnect with my own intuition and to find myself again. She literally transformed my life. I am healthy spiritually, physically and emotionally. I highly recommend her mentoring program.

I have lived in the Denver Metro area since 1990 and have seen many different psychics; but I have NEVER experienced the most AMAZINGLY, ACCURATE psychic as I have in Deb Sheppard! My first experience was witnessing Ms. Sheppard publically perform 26, wickedly spot on, 5-minute individual readings in a 2 & 1/2 hour conference. I was so impressed with this first experience that I elected to participate in her Mentoring Programs. My life since this program has gone from single to married, childless to twins, renter to home owner, and someone's employee to employing others... all in a three year time span. If you are looking for your RIGHT life path, Deb Sheppard is the ONLY psychic who will accurately show you your way.

WHAT IS NORMAL IN THE ARRAY OF EMOTIONS AND REACTIONS WHEN DEATH OCCURS?

As a medium, Deb Sheppard understands grief, death, and healing as she helps others through their process. It didn't come as easily when the loss was her own. Her ability to connect with the afterlife didn't stop her from being human. She was stunned, and she hurt just as you felt when death crossed your path.

The reality is you can't prepare but being aware of the things that can take place around you can help with managing life after loss.

It is imperative that you breathe, love, and move forward once again.

In *Grieving to Believing*, medium Deb Sheppard will guide you through:

Personal experiences with loved ones after experiencing loss.

- Insights from the work that she has done for almost two decades as a medium.
- Her spiritual beliefs.
- What she believes happens with those who cross over.
- Perspectives about healing and self-forgiveness, while also learning to connect with those who have passed.
- Insights on how to choose a medium to help in your grief process.

In Deb's personal story, she shares that her journey of healing is far from over, but she knows she has become stronger than she imagined was possible . . .
AND SO, WILL YOU.

I am often introduced to many so-called mediums, intuitives, and psychics. There is nothing "so-called" about Deb Sheppard. She is the real thing.

—James Van Praagh

Clairvoyant and Spiritual Medium, Author of the New York Times bestseller *Talking to Heaven* and *The Power of Love*

Loved it!! Like Deb, after the loss of my baby back in 1996 I was at a loss for how to move thru it. Everything that Deb found to be true, I did as well. All the things that Deb listed in the "don't do" category near the end of the book, happened. I found myself pulling into myself further and deciding this would be a very individual journey. I soon discovered that I had to find the strength within myself. Grief makes you courageous and clear. The book portrays a healthy journey through grief, and gave very specific ways to work with others. The thing I learned from the book was that it would have been ok to give myself breaks from grief. I never did. So thank you for writing the book and giving words to some of the most unspeakable grief one can endure.
